TECNOVE
BUSINESS GROUP

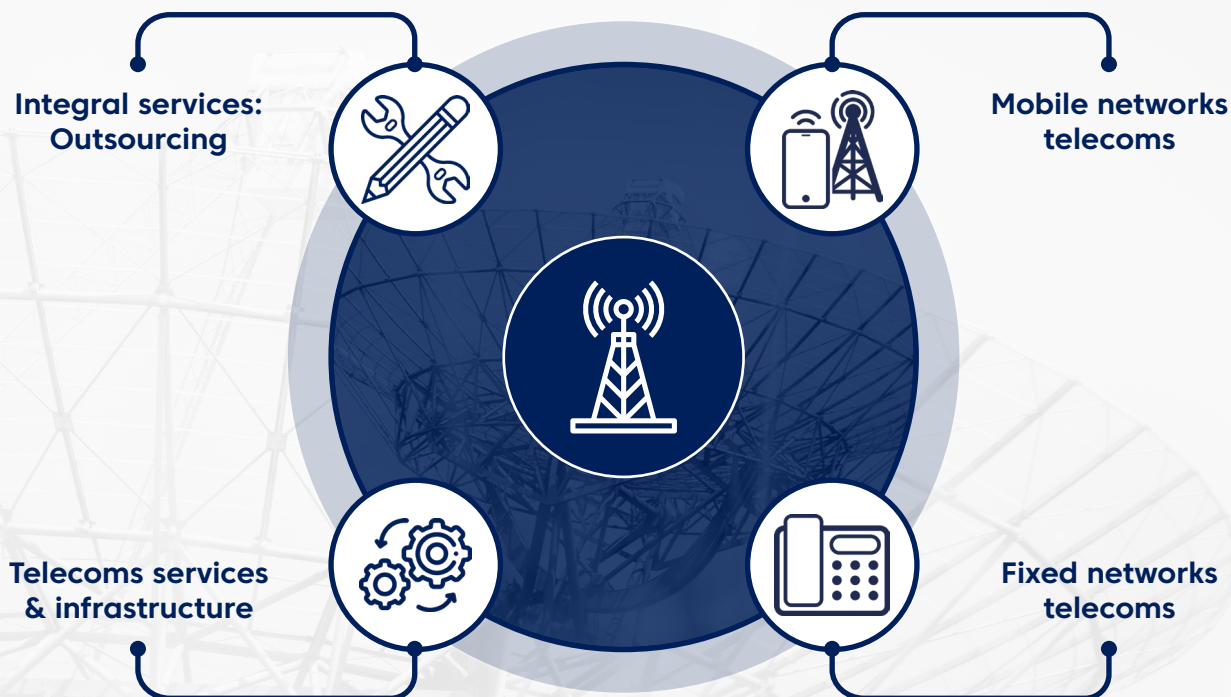

Telecom

This business line is dedicated to telecommunications: fixed and mobile networks, outsourcing and logistical engineering, infrastructure and civil works.

TECNOVE

Telecom

TECNOVE Telecom is a young but capable company that focuses on services applied to the telecommunications sector and can provide state-of-the-art services.

At **TECNOVE Telecom** we provide management services for all areas of telecommunication:

- Fixed and Mobile Networks
- Outsourcing, Logistical Engineering
- Infrastructure and Facility Works
- Civil Works
- Electricity and Power Management Projects

All work is carried out in the most efficient and sustainable way, by a highly qualified team that achieves optimised deadlines and significant cost savings. We always guarantee excellent quality and reliability for each and every client.

1 · Mobile network telecoms

3 · Telecoms services & infrastructure

2 · Fixed network telecoms

4 · Integral services: Outsourcing

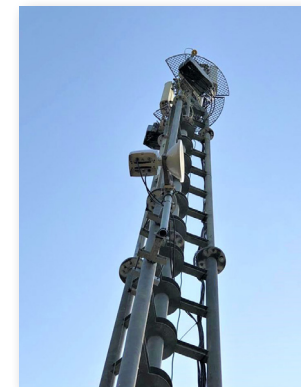

Mobile network telecoms

We cover mobile network deployment, completion-based projects, preventive or corrective maintenance, satellite communications, design, integration and maintenance of mobile units.

We are at the forefront of the latest technologies to succeed in all our projects.

Fixed network telecoms

Installation, connection and configuration work, equipment commissioning, cabling and testing, network maintenance work, project start-up and customer compliance.

We find the solution that best suits your needs, regardless of how complex or demanding they may be.

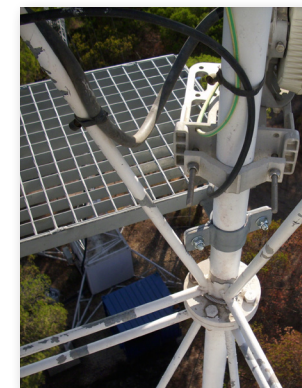

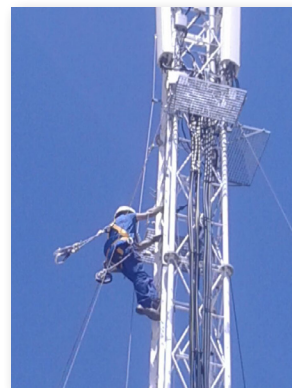

Telecoms services & infrastructure

We manage everything from telecommunications infrastructure works (towers, poles, metal structures, cable routing...) to various services including IP switchboards, video surveillance systems, access controls or alarm systems.

Integral service: Outsourcing

We develop an efficient outsourcing of business processes through our integral service, allowing our clients to directly manage the areas that make their business stand out.

Our integral service includes engineering, technical projects, logistics, project approvals, CAPS and documentation management.
